

# Tire Cord World Data Book 2005

A Market Research Report  
published **January 2006**

## HISTORICAL TRENDS & FORECASTS

Demand	Applications
Pricing	Foreign Trade
Suppliers	Market Share
Capacity & Expansions	Product Developments

**Overview:** This report provides a comprehensive and up-to-date overview of the \$4.7 billion global market for textile reinforcements used in the rubber industry. The report provides detailed data on tire cord fabric demand at the global level and for 22 major countries. Historical data are presented in tons and US dollars for all years from 1994 through 2004, with projections and forecasts provided for 2005, 2006, 2010 and 2015. The report covers yarn, cord and fabric based on polyamide, polyester, rayon and specialty fibers (e.g., aramid, PEN). Steel cord is not covered in this report.

**Features:** Major features of this report include the following:

- Long term forecasts through 2015
- Historical data for every year from 1994
- The latest information on industry restructuring and capacity expansions
- Market share, capacity and product line information for leading suppliers
- Detailed data on tire cord fabric demand for the global market and major countries
- Foreign trade data for tire cord fabric for major countries
- A separate report, included at no additional charge, presenting the data from the *Tire Cord World Data Book 2005* in easy-to-read chart format

**Price:** \$4,950 for hard copy or electronic PDF version (single-user license); \$6,950 for both versions. Purchase an Electronic Corporate Use License for an additional \$950 for unlimited access within your organization.
